

1. Please use the two csv files in our directory, not the ones in learning mall since we have hashing the passwords and saved them.
2. The content isn't changed. The original password is still username + 123.
3. Please check if the module-info.java and the program structure is correctly.

```
module Movie.Recommendation.Tracker {  
    requires javafx.base;  
    requires javafx.graphics;  
    requires javafx.controls;  
  
    opens service;  
    opens entity;  
    opens utils;  
}
```
